Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I very much support this application, I am a local resident and live 2 roads away only.

This brings back into use a disused site, and provides a much needed community space. There are a lot of elderly people in the community facing social isolation, this would be an important space to reduce isolation and the burden on the NHS.

Parking is not an issue for us and most of the local potential users, as many would be walking. There are already churches and schools nearby, so parking would not suddenly become a new issue for a "quiet neighbourhood", it's not quiet anyway due to the school. The local church hall is already being used for Friday prayers, without any undue impact, so there is no additional parking needs to what is already the case at the moment.

The community space is open to the whole community to use (multipurpose hall), and should be welcomed by all communities.
