Commenter Type:

Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I wholeheartedly support this application. The transformation of the ambulance centre into a community centre will be a space full of life, connection, and purpose. Our community needs a safe and welcoming space where people can come together to build friendships and support one another.

This centre is particularly important for local Muslims who will be able to socialise in a relaxed setting, build community bonds, and feel a true sense of belonging. It will help combat loneliness, improve well-being, and create something positive for our community. It is a chance to invest in people, unity, and a positive future for our community.
