Comment Reasons:

Comment: Dear Planning Officer,

Re: Planning Application DM2025/01591

I am writing to express my full support for this application.

As a Muslim woman living locally, I feel very grateful that this proposal would allow me to pray at a mosque within my own community. Previously this was not easily possible. Having access to a local place of worship supports both mental and spiritual wellbeing.

The proposed centre will also provide valuable space for women and create opportunities to connect with other members of the community. Through meeting other women locally, it strengthens positive neighbourhood relationships and community bonds.

The educational programmes for children and wider community activities will be beneficial for local families.

The building is modest in scale, the extensions are proportionate, and the proposal remains in keeping with the surrounding area. It represents a low-intensity use compared to other forms of development that could take place on this site.

I understand that 12 on-site parking spaces, including 2 disabled bays, are proposed, along with cycle racks to support sustainable travel.

From my experience attending prayers with my husband at other mosques, worshippers park considerately and follow parking rules. I have not observed unsafe or obstructive parking. Respect for others and for the wider community is an important part of our faith, and worshippers are

guided to follow rules and regulations and to consider the wellbeing of neighbours. For this reason, I do not believe the proposal would result in significant noise or traffic disruption.

In addition, Friday prayers are intended to be staggered to avoid conflict with nearby school pick-up times, which shows thoughtful planning and consideration for the local area.

For these reasons, I respectfully ask the Council to approve Planning Application DM2025/01591.

Yours faithfully,

Tahira Hasan Chowdhury, ACCA
