Comment Reasons:

Comment: I wish to register my support for planning application DM2025/01591. This is a sensible, policy-compliant proposal that will make good use of a unused site and serve the local community.

I have read the noise assessment and I am reassured that the proposed use will not cause a noise nuisance. The acoustic consultants concluded that noise at neighbouring properties would not exceed background levels, and that the facility would be quieter than the former 24-hour ambulance station.

Moreover, 7% drive alone, and 20% car-share. The travel survey data shows that 50% of Friday prayer attendees travel on foot, only 11. This is a community that predominantly walks to worship. The provision of cycle storage in the application further supports sustainable travel.

Moreover, as a parent, the family-friendly provision in this proposal matters to me. Having somewhere local where I can take my children for educational activities and community events would make a real difference to our daily life.

There is simply nothing like this currently available in the Belmont area. Residents who want to access community or faith facilities have to travel to Sutton town centre or further afield. This proposal would change that.

I think it is important that the planning officer considers the breadth of this proposal. The educational programmes, wellbeing sessions, and interfaith events are designed to bring different parts of the community together. This is genuinely inclusive provision.

The former ambulance station operated 24 hours a day. The proposed facility has restricted hours. This is a straightforward improvement in terms of the impact on neighbours during unsociable hours.

In addition, I understand why parents might worry about school-run congestion, but the timings of Friday prayers simply do not overlap with school drop-off or pick-up. The Transport Statement has addressed this directly and the evidence is clear.

I think this application deserves approval and I respectfully ask the Council to grant planning permission for DM2025/01591.
