Comment Reasons:

Comment: I am writing to express my strong support for planning application DM2025/01591.

The proposed change of use from a vacant ambulance station to a mixed-use Place of Worship (F1) and Community Hub (F2) represents an excellent opportunity for the Belmont area. Bringing this site back into active use will provide much-needed facilities for local residents to gather, socialise, and access community services within enabling those who reside within walking distance to get more leisure by having the ability to walk to such a facility (where as normally, they would have to drive elsewhere to a similar facility which is further away)

The inclusion of a side and front extension appears well-considered, and I believe the provision of cycle and refuse stores demonstrates a commitment to sustainable development. This project will transform an underutilised building into a vibrant community asset that fosters social cohesion. I look forward to seeing the positive impact this hub will have on this area, especially bringing more footfall to the Belmont storefronts.
