Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I am fully support the planning application for the proposed Islamic Community Centre in Sutton.

Currently, there is no dedicated Islamic community centre in this area to serve the needs of local Muslim residents. Many families must travel significant distances for congregational prayers, childrens religious education, and community support activities. This proposal aims to address that gap in a responsible and positive manner.

The proposed centre will provide

A place of worship for daily and Friday prayers

Islamic educational classes for children in a structured and supervised environment

Educational sessions for adults promoting positive values such as respect, community harmony, charity, and civic responsibility

Community information services and support for families.

Interfaith and community engagement activities to strengthen relationships between different communities.

The centre is not only a place of worship but also a community hub that will promote social cohesion, inclusion, and mutual understanding among residents of all backgrounds.

We believe the Islamic Community Centre will

reduce travel outside the borough for worshippers

Provide structured youth activities that positively engage young people.

Encourage volunteering and charitable work within the local area.

Contribute to community harmony and integration

The centre will operate in a respectful and responsible manner, ensuring minimal impact on neighbours and complying fully with planning regulations set by Sutton Council.

Sutton is a diverse and inclusive borough. Establishing this community centre reflects the growing needs of local residents and supports equality of access to faith and community services, similar to other faith-based centres already operating within the borough.

For these reasons, I am strongly support the approval of this planning application.
