Comment Reasons:

Comment: This community centre is walking distance from my home and using it avoids me having to travel by car to Sutton to pray. We currently have to rent a hall to do our prayers and we have to lay it with mats every time we use it and remove the mats when we finish. It will be very useful to my son to come pray and meet other boys of his age exchange useful ideas on how to positively develop their personality to serve all the local community of all religions and backgrounds they will provide women wellbeing services food banks for the homeless and poor people in the neighbourhood I know the Bamsa trustees very well they are very educated and inclusive community who aim to change a derelict site to one full of life we have already planted trees in the garden they already encourage people to come walking or by public transport and have officers to monitor parking so that they do not inconvenience the local residents They stress upon people attending how to respect the local residents and their peace and tranquility and their religious beliefs and way of life. The trustees already encourage exercise sessions for youngsters and the elderly to promote their health and wellbeing. They are very good in collecting donations and funds and put them to good use of the local community. They arrange meal sessions and iftars to bring the local community together to encourage positive dialogue between different faiths. It will not just be a place of worship but a place to improve one self by learning how to be good and useful to others how to respect fellow human beings of all beliefs and faiths and background. We love the local community and we plan to enrich and contribute to it positively we will be open and inclusive to the local community and be open and responsive to their suggestions and complaints if there are any I fully support this application which will make a positive impact to my life and that of my family
