Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I am a local resident and I strongly support planning application DM2025/01591. I have read the application materials and I am satisfied that this is a responsible and properly planned proposal.

The health benefits of community participation are well-documented. Loneliness and isolation contribute to poor mental and physical health, and local, accessible community facilities are one of the most effective ways to tackle this. This proposal will deliver real health and wellbeing benefits for residents.

It makes no sense for a brownfield site in the heart of a residential neighbourhood to remain vacant when there is a clear demand for community facilities. This proposal makes efficient use of the land without encroaching on any greenfield or protected areas.

It is a part one, part two storey addition that sits comfortably within the existing site. The proposed extension is not overbearing. The inclusion of cycle storage, refuse stores, and external greening shows that the applicant has thought carefully about how the building sits in its surroundings.

The facility will operate within defined hours, which is a significant improvement over the former ambulance station that ran 24 hours a day, seven days a week. Residents will no longer have emergency vehicles coming and going through the night.

I encourage the London Borough of Sutton to approve application DM2025/01591. It is properly planned, policy-compliant, and will bring genuine benefit to the community.
