Comment Reasons:

Comment: Having lived in the community for over 25 years, I am a resident and acutely aware of the needs of the community.

It appears the topic has been controversial with many objections being based on the premise of a faith based organisation being with a residential area.

The residential area is vibrant and this proposal with support harmony within the community and will work with the area to build strong relationships within the community.

The existing community also has a desire to have a local place to pray and worship without having to rent and borrow spaces.
