Comment Details

Commenter Type:

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I strongly object to this development as the area is already really busy and this will cause further traffic congestion. With the local school there may be risks related to the extra parking and a reduced visibility for pedestrians and drivers alike. The proposed extension and building height would create a building out of keeping with the residential neighbourhood. There might also be more disturbance to the elderly at a care home near by. The proposal is likely to make a negative impact on vulnerable residents.
