Commenter Type:

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: Logistically it is not suitable as it's a close residential area. It's already busy with the Avenue school and the dispersal of up to 250 people at 11pm can mean voices, engines, door slamming and cars circling the residential area. The noise will affect the vulnerable in the nursing home nearby and us residents who live just a few metres away. Avenue Primary has over a 1000 pupils and extra traffic increases risk at drop/pick up and reduces visibility. I already have near misses of accidents going in and out of our road which is opposite the proposed site/extensions. The proposed extensions and increased building height would create a structure that is visually dominant and entirely out of keeping with the domestic scale of the neighbourhood. Please object the build as it really is not suitable for the neighbourhood. People who live outside the area shouldn't have a say as they're not the ones impacted. The residents in Belmont who is going to be affected should be heard first.
