Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I object to this development as it would increase traffic and contribute to additional air and noise pollution. School-time parking pressures must also be carefully considered. The road is already served by the S4 bus route and the nearby S2 route, which contribute to existing congestion.

In addition, there is a care home around the corner, and the potential impact on its residents should be taken into account. The rear gate of Avenue School is located nearby, and the pick-up and drop-off of younger children already create challenges. Additional vehicles parking on surrounding roads would further complicate access and safety in the area.
