Comment Reasons:

Comment: I will be most grateful for this facility in this area.

I will primarily attend as a place of worship but the association have been thoughtful about the use of the building and it has the potential to serve the wider community well.

For example a multi use hall that can be used by people of any or no faith can become a useful community hub in the area.

I will be moving closer to the ambulance station in due course, withing walking distance, so I will be able to benefit from the facility without inconveniencing the neighbours in terms of parking for example.
