Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I was the first home owner in Balmoral Way more than 40 years ago. I was a police officer for 30 years retiring as a senior officer. I am therefore very familiar with the area and during my service worked closely with local authorities dealing with various issues involving neighbourhood policing. When Balmoral Way was constructed road safety was a major issue, the homes had double garages and decent sized drives. Dorset Road was subject of serious discussion and it was decided to prohibit vehicle access to Brighton Road to minimise traffic flow as it could prove a dangerous cut through'. The local school, The Avenue, was a small infant school and had parking on site for staff. Since then however the school has increased 4 times and has now limited parking on its premises because of extra buildings on the grounds. This has increased parking congestion and is now become a serious road safety issue. I would be surprised if London Transport had not objected to the likelihood of disruption to the bus route via The Avenue. If I can give an example of a recent incident when I was asked by a delivery driver if it was my vehicle parked across my driveway and he couldn't pass causing congestion behind him, I explained the car belonged to a parent collecting her child from school. The driver and two of his colleagues physically bumped the car onto the pavement to allow his and the other vehicles to pass. I spoke to the car driver on her return and explained what her inconsiderate parking had caused but met with the usual excuse, "I was only 20 minutes". Whilst I'm not adverse to dealing with confrontation my in my 80s I've become more wary of doing so. I hope you will take my concerns into consideration when deciding this application. I would be willing to be contacted if I can be of further assistance.
