Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I am objecting to the change of use from ambulance station to the building of a mosque. This would greatly increase the traffic and parking on Holland Avenue. It is already congested due to the Avenue School's need for parking and some of the Friday Mosque services would be at the same time as the school parking making the situation impossible. I anticipate that this congestion will not be only be restricted to Fridays as there will be other activities at the mosque. The mosque would also be out of character with the domestic scale of neighbouring properties and could devalue our houses. It would also be a serious noise disturbance in the area. In addition people visiting the mosques without cars would have to use the S4/S2 buses - this is not viable for the volume of anticipated increase of people and would cause problems for the local people using the bus now.
