Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I have been in this area for a while now, and I can see how the local residents bear with the heavily congested period considering we have The Avenue school in the close proximity, this proposed development, from a road safety aspect, the increased traffic would cause a danger to the pedestrians and school children going to and from the school.

This proposal would cause severe congestion, stress and major inconvenience to local residents and disruption. Roadside parking will overflow to the roads in the vicinity, with all the inconveniences this will have a negative impact on the local community and potentially on the price of local properties.

I strongly recommend that the committee do not approve this proposed development.
