Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: It's not a fit to the residential area. It's not culturally necessary in an area with narrow roads and high levels of congestion due to the primary school which is practically adjacent. It's not necessary within this well populated residential area. You will be bringing in a lot of people and extra traffic from outside the area which will affect residents homes and people who use the school. There will be a large influx of men using the area not to mention all the extra parking.
