Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I am a 27-year-old local resident and I would like to express my support for the proposed community centre and place of worship.

Growing up in this area, I have seen how limited shared community spaces can be, particularly for young people and families. This proposal stands out because it is not just a place of worship, but a genuinely inclusive community hub open to everyone. The multi-purpose hall, educational classes, youth activities, and interfaith events would help bring people together and strengthen community ties.

I am especially supportive of the facilities for children and young people, such as after-school tuition, homework clubs, and structured youth activities. Safe, positive spaces like this are incredibly important in helping young people stay engaged, supported, and connected to their community.

The focus on families, women's wellbeing, mental health, and activities for older residents shows a real understanding of the needs of people at different stages of life. These are services that are often missing locally and would make a meaningful difference.

I also appreciate that the plans have clearly considered the local area, with managed access, parking provision, and a modest building design that fits in with the neighbourhood.

Overall, I believe this development would be a positive addition to the area and a valuable resource for the whole community. I fully support the application.

Yours faithfully,
Hamaad Zahid
Local resident
