Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I am a 20-year-old local resident and I would like to express my support for the proposed community centre.

As a young adult living locally, I feel there is a real lack of accessible, positive spaces within walking distance where people my age can spend time in a structured and supervised environment. This centre would provide a calm, safe place to meet others, take part in organised activities, and benefit from community and wellbeing initiatives.

The fact that the centre is close by and easy to walk to is especially important, as it allows young people to access facilities without relying on cars or public transport. Having a local space that encourages faith, responsibility, routine, and positive engagement would be extremely beneficial.

The proposed youth activities, light indoor recreation, educational support, and wellbeing sessions would help young adults stay active, connected, and focused in a constructive way. Spaces like this support personal development and reduce isolation, while also being respectful of the surrounding neighbourhood.

I believe this centre would be a valuable and well-managed resource for young people and the wider community, and I fully support the application.

Yours faithfully,

Ayub Zahid

Local resident, age 20
