Comment Reasons:

Comment: I am writing to express my support for planning application DM2025/01591.

As a resident of Sutton who has been involved in organising local charitable and community initiatives, I have seen first-hand how important strong local cohesion and shared spaces are in bringing people together. Through my work on community-led projects, I have seen that accessible, structured spaces where people can meet and support one another are vital to fostering positive local engagement and activity.

There is a clear need in the area for a welcoming and managed indoor space that can host community activities, youth engagement, wellbeing initiatives, and events that strengthen connections between residents.

In my view, the proposed change of use of the former ambulance centre would provide exactly this kind of opportunity. It would support both the needs of local residents and provide a structured community space that encourages wider participation and engagement.

Having worked closely with people from different backgrounds across Sutton, I believe developments that encourage constructive participation and social interaction are vital in building a healthier and more connected neighbourhood.

Overall, I believe the proposal would contribute positively to the area by supporting community cohesion and improving access to shared local space.

For these reasons, I respectfully support the application and ask that it be given favourable consideration.
