Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: This development would be an accident waiting to happen. The nearby crossroads are already very dangerous.

My car has been hit by somebody who claimed he didn't see me as his sight line was blocked by cars parked in Dorset Road.

A few months ago a car hit a lamppost and only a couple of weeks ago I saw a cyclist lying in the road having been hit by a car.

The Council allowed/encouraged the enlargement of the Avenue School with no thought for the traffic it would generate because of children coming from further away. Council departments do not communicate with one another and in spite of our protest double yellow lines were put outside our house thereby removing parking spaces used by parents at afternoon pick-up.

I've seen the exodus from Friday prayer at St. John's Church Hall and I've seen the exodus of the Avenue School. The concept of both happening at the same time makes for a very dangerous situation for both traffic and pedestrians. Pavements are already overcrowded with children, buggies and parents. Pedestrians exiting the Ambulance Station would be walking against this flow.
