Commenter Type:

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: We are objecting to this planning application on the grounds that the area cannot cope with an increase in either the number of pedestrians or cars particularly at the drop-off and pick-up times for the children attending the nearby Avenue Primary Academy School which has over 1,000 pupils on roll.

Our road, Balmoral Way, is a very narrow road and at times, it is already difficult to drive through due to the number of parked cars. The prospect of more is frankly not only dangerous but also outrageous !

We are both elderly and my wife is in a wheel chair. Recently, on a Friday lunch time, we came home from Sutton on the S4 bus. We had wanted to get off at the junction of Dorset Road and Holland Avenue but, due to the sheer number of cars parked along the road and even on the corners, the driver could not stop. Consequently, he took us much further along Avenue Road in front of the school entrance. It was much too much for me to push the wheelchair home and we both found it a real struggle.

The congestion in this area, especially on a Friday between 12.30 and 14.30 is just intolerable.
