Comment Reasons:

Comment: I am writing to formally state my support for this Planning Application. As a local resident since 2017, I believe this proposal will be a significant asset and bring vital benefits to our community.

The proposal represents an excellent conversion of a currently unused building into a thriving communal hub. It is particularly commendable that this is a self-funded facility supported entirely by the community.

The building is modest in scale, in keeping with local character, and represents a low-intensity use of the site compared to other potential developments. I am pleased to see the focus on community wellbeing, including inclusive facilities, educational programs for children, and dedicated space for women's activities. The project will provide a dedicated facility for the religious needs of the local Muslim population and offer a space for youth engagement and wider community improvement.

Regarding infrastructure, the provision of 12 on-site parking spaces, two disabled bays, and cycle racks demonstrates a clear plan for sustainable travel. Many residents are within walking distance, which will help reduce the local carbon footprint. Any potential traffic or noise concerns are effectively addressed by implementing staggered Friday prayer sessions. As Avenue School closes at 2:10 PM on Fridays, there is minimal overlap with prayer times, avoiding conflict with school pickups.

I do not believe this application will cause significant issues regarding traffic, light, or noise. I respectfully ask the Council to approve this application.
