Comment Details

Commenter Type:

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: The parking is already restricted, particularly during the school run times and this will increase the traffic and further restrict parking for much of the day and into the night. The current parking works because the space is clear by the time most people return from work but the proposed planning application will destroy this arrangement and residents will be restricted at all times.

The increase in traffic and people coming and going will add to the noise and change the character of the area.
