Comment Reasons:

Comment: The proposed development will increase traffic in an already congested location. The impact of which are unacceptably harmful and not realistically mitigable. As a nearby resident we are already impacted by the nearby school, and access at certain points in the day is very difficult. Parking is now a problem and sometimes access to our homes can be restricted due to poor parking (which in itself is due to the lack of available parking in the area). The proposed development by its very nature will only increase traffic flow to the area, further negatively impacting nearby residents.
