Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: Belmont is a small and quiet residential area and the creation of a place of worship will make the area unliveable for the residents.

The build up of traffic will be unbearable for residents in an already bad hotspot due to the local school. The level of noise and pollution will increase significantly and will reduce the quality of residential living in that area.

The place of worship will also mean a significant increase in noise especially at weekends, early morning and evenings which is unfair for families / religions that have lived in the area for many generations.

The area doesn't need to have refuse stores and will lead to increased rubbish in the area with people using the area to dump unwanted refuse especially at night. This will lead to additional anxiety for current residents with animals, vermin increasing in numbers.

Belmont does not need another place of worship in the area. Please do not spoil a quiet area by encouraging 1000's of people to a very small community with limited parking in the area, that will block up roads, cul du sac's and make the area a volatile area to live.

Bringing this place of worship to Belmont will, almost certainly, lead to problems in the community.
