Comment Details

Commenter Type:

Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: The growing Muslim population currently have limited dedicated spaces for worship. Equal access to places of worship is part of a fair and inclusive society and will help contribute to interfaith dialogue, strengthening community relations.

Members of the Muslim community have been attending St John's Church for religious activities for several years, which is located very close to the proposed site. This indicates that worship-related visitor volume already exists in the area and does not pose a problem.
