Name: Mr Paris Cowley

Address: 17 Holland Avenue Cheam SM2 6HW

Comment Details

Commenter Type:

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: This would be detrimental to the public safety of the neighbourhood. The proposed build located next to a busy primary school poses a risk to children's safety.

The proposed build will attract a large community of people throughout the day which interferes with the already chaotic drop off and pick up times at the Avenue primary school. During these times the top of Holland Avenue and Dorset road is already incredibly congested especially when the s4 bus is trying to get through with a steady stream of traffic and parked cars. It turns into a complete stand still at these times.

The location has poor public transport so most people will drive and the proposed new build will attract a very large community influx meaning an enormous amount of extra parking is required where the streets and planning don't have the capacity. It will totally break the already fracturing system.

The proposed insued chaos will ultimately lead to the childrens safety be put at risk... potentially costing a childs life as a consequence of peoples disarray and distracted focus.

Do not make this mistake.
